

Fire Hall Building Update

We are making progress little by little. The building is coming along great.

Right now the building is pretty much complete. There are just a lot of little things that still need to be completed.

We have a complete kitchen now! Yay!! The ventilation/exhaust system and hot water tank installations were completed last week. All of the rooms (office, maintenance room and bathroom) are complete. They look great! Turn-out lockers have been delivered. We just need to assemble and place them. Overall things are going good and the building has been in use for a couple months now.

Many have asked about the status of the engraved bricks. We met and figured out a layout for those bricks to go at the base of our flagpole. We ordered the flagpole, but have been waiting for it for a while now. Shipping has been the issue, as we are seeing throughout the country. It is supposed to be delivered soon. However, with the weather, we have decided to hold off on doing installation of any concrete, including the flagpole and bricks until spring. We want to do it right and in speaking to the concrete contractor, this is the best decision.

Bricks are still available for purchase. Forms available at Tom's Tavern, City Hall or email me at tenaw.ercouncil@gmail.com

I personally want to thank everyone that has been involved in this project. There are a lot of people to thank and we will have a complete list of people to thank at the grand opening next year.

If there are any other questions, please feel free to reach out to me or Chief Wilson.

Thanks!!

Tena Williams, Project Manager
